## Lippincott New Zealand Usage November 2016 – February 2017 Update

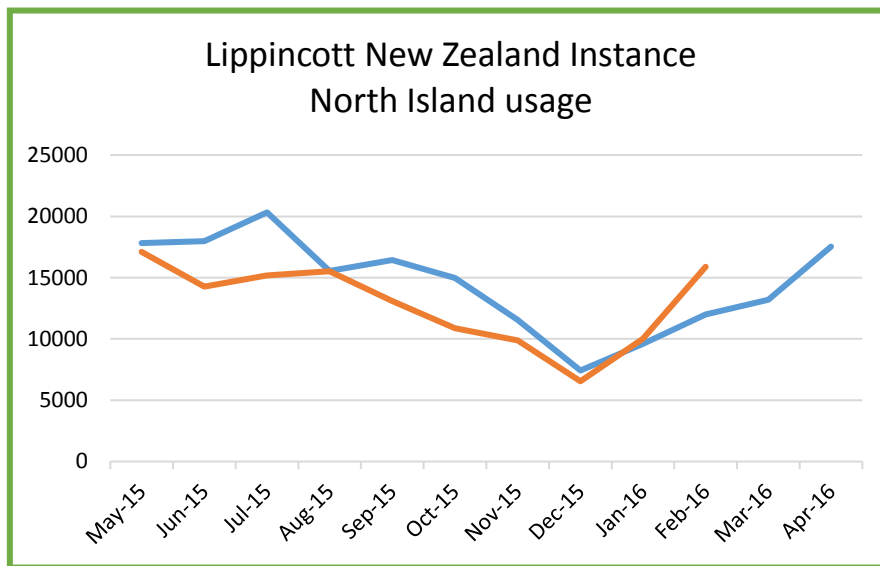

Although usage has been tracking similarly to last year (though lower overall) we have seen an increase in January and February that saw usage slightly above where it was for the same time in 2016. The February hits were also noticeable for the increased student usage with 29.8% being from educational institutions.

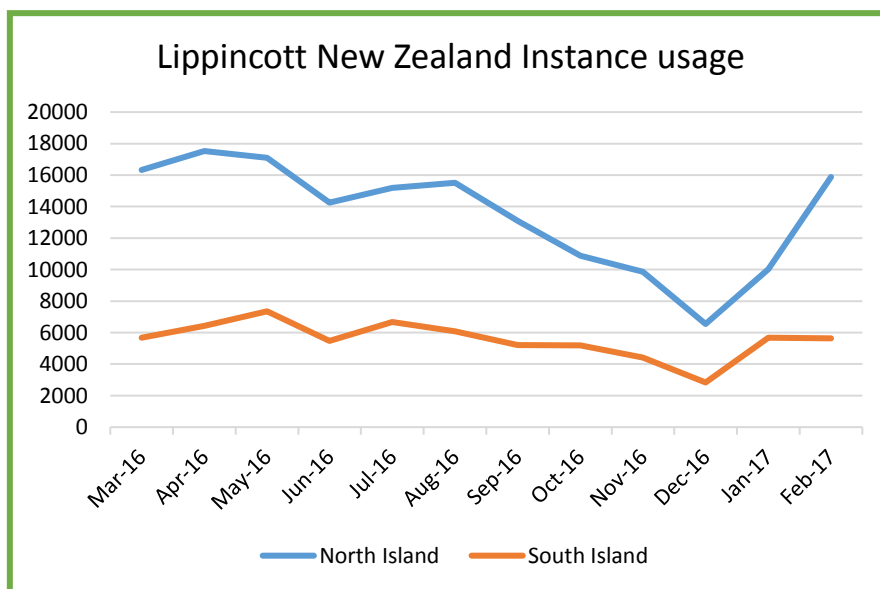

There have been 467,197 hits on Lippincott New Zealand Instance since it started in April 2015. Of these 121,189 (26%) have been made in the South Island. South Island usage currently is tracking at a similar rate as the past year, although January and February has seen nearly 2000 more hits than the same months last year.

In comparison the North Island usage has been variable from a high of 20,325 hits in July 2015 to a low of 6,548 in December 2016.

Lippincott was first introduced to the South Island in May 2015. At the time of introduction Midland region had been using Lippincott for three years. Since then the South Island has continued to add users from the whole of health sector, and Midland region has been joined by three further DHBs – Wairarapa, Whanganui and most recently Hawke Bay. Below is a comparison of usage between the North and South Island over the past 12 months

Over the four months between November 2016 and February 2017, there were 62,478 ‘hits’ on Lippincott. Below is a summary of where that usage occurred. It is interesting to note the New Zealand Instance is being viewed in a variety of places outside of New Zealand including South Africa, China, the United States and Australia.

Lippincott New Zealand Instance Usage – November 2016 – February 2017

	Nov-16	Dec-16	Jan-17	Feb-17	Totals

## Tertiary Institution Usage

As mentioned above, an increase in overall hits during February 2017 was noticeable for the increased student usage with 29.8% being from educational institutions.

	Nov-16	Dec-16	Jan-17	Feb-17	Total
<b>North Island</b>					
Wairakei IT	123	38	517	2366	3044
WITT	332	110	55	251	748
Wintec	0	0	933	3107	4040
Whitireia	25	1	3	121	150
	480	149	1508	5845	7982
<b>South Island</b>					
NMIT	100	0	38	85	223
ARA	0	0	129	365	494
SIT	0	47	0	97	144
Otago Polytech	0	0	0	0	0
	100	47	167	547	861

It should be noted that there have been some data issues in the South Island including the issue that data that captures usage of the Lippincott App can only be linked to geographical location not organisation.

Anecdotal information would suggest that students are high users of the app so this should be noted.
