

Sudden Unexpected Death in Infancy (SUDI) South Island SUDI workshops

Reminder for registration. Note: changes (in bold) to Southern locations.

We've come a long way, but too many of our babies are still dying.

Please join us for a workshop where we'll explore what's happening in the South Island in terms of SUDI prevention and where improvements could be made.

Our goal is to reduce the rate of SUDI by 86 percent overall and 94 percent for Māori by 2025.

Workshops are three hours and are being held throughout the South Island in November and December.

Timaru	6 November (pm)	Christchurch	30 November (pm)
Timaru	7 November (am)	Cromwell	1 December (am)
Christchurch	9 November (am)	Invercargill	4 December (am)
Nelson	27 November (pm)	Dunedin	5 December (pm)
Blenheim	28 November (am)	Greymouth	6 December (am)

[Click here to register your interest by 4pm on Friday 27 October.](#)

These workshops are being run by the South Island Alliance of DHBs and funded as part of the Ministry of Health's National SUDI Prevention Programme. Participants who are self-employed or attend outside of their usual employment will be reimbursed for their time.
