

Key Messages – Alliance Leadership Team (ALT)

Memo to:	Key South Island Alliance stakeholders
Purpose of memo:	To provide a brief summary of the key messages from the most recent South Island Alliance Leadership Team meeting.
ALT meeting date:	Monday 13 May 2019
1	<p>Group membership update</p> <p>Health of Older People SLA (HOPSLA)</p> <p>ALT noted that Yoram Barak and Maria Scott-Multani have resigned from their HOPSLA roles as psycho-geriatrician and community provider respectively. The following two nominations were approved:</p> <ul style="list-style-type: none"> • Anna Carey, Business and Care Manager, Middlepark Resthome and Hospital • Carole Kerr, Dementia Educator and Regional Coordinator Walking in Another’s Shoes Programme, Nelson Marlborough/Canterbury DHB
2	<p>Inter DHB support</p> <p>The South Island chief executives have identified that a regular agenda item should be that of support requirements and opportunities between DHBs related to significant events.</p> <p>This month, ALT acknowledged the support provided to Canterbury DHB by Nelson Marlborough DHB in relation to the provision of mental health services.</p> <p>Mental health remains a high priority in the South Island and the region’s DHBs are working together to meet the needs of the community. The support provided to date has been very effective and greatly appreciated by the teams within Canterbury DHB. Over the next months, this will be developed further.</p>
3	<p>MOSAIQ</p> <p>ALT approved Stage II of the regional rollout of MOSAIQ, an integrated information system for radiation oncology.</p> <p>During Stage I, MOSAIQ was implemented for radiation and medical oncology in Canterbury, South Canterbury and West Coast DHBs, as well as radiation oncology, medical oncology and haematology in Southern DHB. Upon completion of Stage II, all radiation, chemotherapy and haematological treatments for cancer in the South Island will be planned and delivered via MOSAIQ.</p> <p>Using the same system across the region constitutes a significant step towards greater consistency of care, improved patient safety, reduced inequities, better work-flow integration of data collection and reporting, as well as financial benefits.</p>
4	<p>Allied health career framework</p> <p>The South Island directors of allied health, alongside the Public Service Association and South Island Workforce Development hub, have initiated a group to develop a regional career framework for allied health. The aim is to provide consistency in expectations of practise across professions and DHBs. This would also enable recognition and development of designated clinical and/or leadership positions. ALT noted and expressed its support of this work.</p>
3	<p>Information Services SLA (ISSLA) – RSPI</p> <p>ALT noted that the Memorandum of Understanding between the South Island Alliance and Ministry of Health to upgrade the National Provider Index and implement a Regional Service Provider Index (RSPI) has been finalised. The RSPI will provide a single source of truth about who’s who in the South Island health sector – who works where, doing what and with whom. The initial stages of this project are now underway.</p>
