

Key Messages – Alliance Leadership Team (ALT)

Memo to:	South Island Alliance stakeholders
Purpose of memo:	To provide a brief summary of the key messages from the most recent South Island Alliance Leadership Team meeting.
ALT meeting date:	Monday 9 September 2019 (VC)
1 DHB Māori Workforce Project	<p>ALT approved the funding for a DHB Māori Workforce Project.</p> <p>In order to contribute to Māori health and achieve equity, there is a need to foster the growth and development of the Māori health workforce specifically. Analysis of New Zealand’s registered health workforce shows Māori are currently greatly under-represented in all areas.</p> <p>This project is a collaboration between the South Island district health boards (DHBs), facilitated by the Workforce Development Hub (part of the South Island Alliance Programme Office, SIAPO), and Kōhatu, Centre for Hauora Māori (University of Otago).</p> <p>ALT requested consideration be given to:</p> <ul style="list-style-type: none">• iwi linkage, guidance and involvement• scope to include non-DHB workforce• shorter timeframe, if possible.
2 Access to Health Roundtable	<p>Health Roundtable (HRT) is a non-profit membership organisation of health services across Australia and New Zealand. It exists to:</p> <ul style="list-style-type: none">• provide opportunities for health executives to learn how to achieve Best Practice in their organisations• collect, analyse and publish information comparing organisations and identifying ways to improve operational practices• promote interstate and international collaboration and networking amongst health organisation executives. <p>HRT Insights is an analytics platform that supports collaboration and decision making around health care improvements. Currently district health boards (DHBs) have access to HRT data. To support South Island Alliance planning and activities, ALT has agreed to request access for SIAPO on behalf of the South Island DHBs.</p>
